

PATAGONIA PUBLIC LIBRARY PRESENTS

# ASTRONOMY FOR BEGINNERS

This 6-class course by Ken Graun is for astronomy enthusiasts who want to get acquainted with the night sky. Participants will learn how to identify the constellations and gain hands-on experience with telescopes.

Southern Arizona has beautiful, clear nights, which should ensure plenty of practice identifying constellations and using telescopes. This is a course for having fun and learning something new. Reference books and star charts will be provided free for participants to keep.

**Where: Patagonia Library Reading Room**

**When: Evenings, 7-9pm**

## **Dates:**

**September 24, 2022**

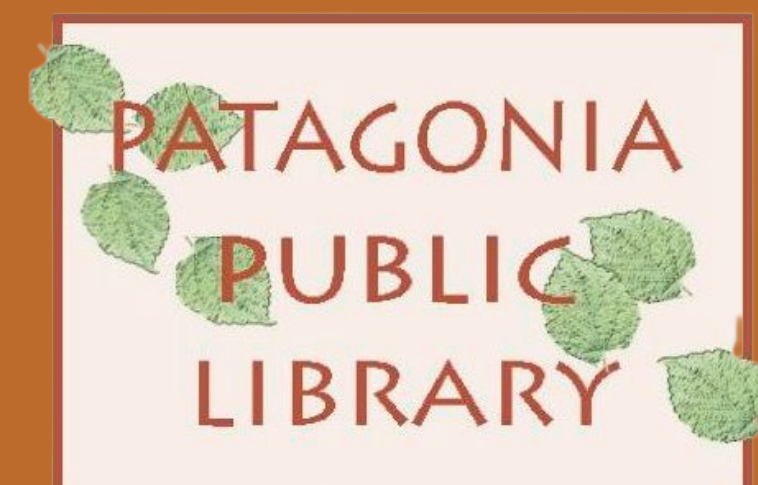

**October 22, 2022**

**November 19, 2022**

**December 17, 2022**

**January 21, 2023**

**February 18, 2023**
